

Heleen Mineur (1994, NL) pays a cross-media homage to *nuances* of contemporary chaos/care.

Rhythmic works knit together *script*, (*moving*) *image* and *relics*; in sonic, symbolic or tangible form. Her practice explores the *semantics* and *bitter-sweet* tropes of the *Now*; through confabulated theories, *poetic-satiric* voices and *neuro-spicy* subtext.

The adoration in use of scores and study in the possibilities of narration - resonates with her teaching practice (HKU a.o.) - in which she continuously shapes and extends her own curriculum. This balances with speculative future workshops (in collaboration with BAK, Utrecht) and occasional art projects with kids. Together with Levi van Gelder they are CCC, Celebrating the Counterfactual of the Contemporary in writings, video and workshops.

(I go by she/they)
